Ministry Objective

To be involved in a church that is doing things with great excellence to further the Kingdom of God. To be in a relevant ministry situation that maximizes my gifts and calling. To lead a team of the highest caliber. What drives me in ministry is the opportunity to help others become quality contributors in ministry roles. To lead and see others come to Christ, seeing others use their gifts in ministry, and watching people become worshipers of God through their personal worship times and through lifestyles of worship.
